*How to Stop The Virus of Bad Ideas*

Bad ideas are like viruses, sickening our souls and making us miserable. This talk delves into the fascinating world of how doctors race to combat the outbreak of deadly viruses, and reveals how the four steps doctors take to stop viruses in the physical world can help us stop bad ideas from infecting us and our children.

Thursday, June 18

**RAY PENNINGS**, Executive Vice President of CARDUS

*What Distinguishes Christian Schools?*

Christian education matters well beyond its walls and hallowed halls. Our schools' brand and value propositions matter not only to students and parents, but also to our neighbors, employers, and the communities in which we live. This is essential for our collective Christian witness, of course. And it contributes to the educational outcomes that our graduates are able to bring to the community. For the past decade, CARDUS has been leading the way in measuring graduate outcomes in the area of spiritual formation, academic achievement, and cultural contributions. CARDUS Co-Founder Ray Pennings will provide an overview of this data and encourage us to think of how we might both improve internally and also be good neighbors, showing ourselves as contributors to the public good.

Friday, June 19

**MILTON L. GONZALEZ**, Executive Director at Covenant School in McAllen, TX

*God's Perfect Timing*
